

Our Borough Solons Decide Piggie Must Remain Out

**Council Adopts Recommendation Of
Board Of Health Placing Clearfield
Babies Ahead Of Clearfield Hog**

LOCAL LEGISLATURE HELD BUSY SESSION

The regular meeting of council held in the borough building last evening was participated in by Burgess Callahan and nine of the members of council, with President Fletcher presiding. It was a rather strenuous session and in order to accommodate all lobbyists and those with grievances, real and imaginary, the meeting room of the Firemen's hall was used instead of the council chamber.

This was the meeting at which the "pig question" was to be settled again, and a large lobby for and against the pig was expected, but the friends of the pig and home-made hams and bacon failed to materialize and poor piggie received a short shrift.

Following the usual routine business reports of the different borough officials were heard.

Street Commissioner Graham reported the activities of the men in his charge and presented a pay roll totaling \$448.90 for the past three weeks. He also made a report of the total cost of West Fifth avenue sewer, which was completed May 3rd last. This is an eight inch sewer and is 562 feet long. It was built at a cost of \$430.56. Labor and team work amounted to \$259.77; pipe, \$117, while the remaining \$53.79 was spent for engineering, publishing ordinances and other incidentals.

The pro rata share assessed against the abutting property owners will be 39 cents per foot.

Borough Engineer Hess reported at length on engineering matters and presented an estimate of cost of paving West Third avenue, which had been requested by property owners, who would also agree to pay two thirds the expense of same providing council could see their way clear to going ahead with that work. The street is 1,240 feet long and according to the estimate the cost of paving would be \$4,624. Under the joint plan the borough would have to pay \$1,541 and the abutting property owners the remaining \$3,083.00.

Tax Collector Jacobs reported collections of \$556.87 for May on duplicate of 1916. Collector Jacobs completed and paid off the 1915 duplicate in April last.

Borough Solicitor Urey reported collections of \$79.18 since last meeting and presented check for same.

Matter of suspension of Board of Health rule relative to the keeping of hogs within the borough limits was taken up. This proposition was advanced at a previous meeting of council and the secretary was directed to present to the Board of Health a resolution covering the points made by the advocates of the idea, asking a recommendation from the health authorities before disposing of the matter. This resolution with the reply of the Board of Health follows:

It having been brought to the attention of Council at its last meeting that a number of the citizens of Clearfield believed it would be wise in view of the present high cost of living, to suspend for a specified time, viz, during the war, the rule of the Board of Health which provides against or forbids the keeping of hogs within the corporate limits of the Borough of Clearfield; it was the sense of Council, without any action having been taken on the proposition, that it would be but right and proper to have the matter presented to the Board of Health for their recommendation before the same was passed upon finally by Council.

To that end, following the discussion incident to the proposal, the Secretary of Council was directed to submit the question in writing to the Board of Health at its regular meeting preceding the next meeting of Council on June 6th, and ask at your hands same recommendation covering the case.

The member of Council who asked for the suspension of the rule hoped for favorable action on same, with necessary restrictions covering the following points.

1. Restriction of privilege to the sparsely settled sections of town; that is outside of the centre or congested

sections.
2. That privilege be granted by Health Officer, permit for same to require nominal fee to cover inspection charges.
3. That all pens be constructed and maintained as sanitarily as possible, the Board of Health to provide rules covering maintenance of all stys in case said rule be suspended and permits issued.

Council expects and will appreciate a written recommendation covering this proposition in your report to next meeting.

Respectfully submitted,
J. D. CONNELLY,
Secretary

To the Honorable Members of Council:

The Board of Health has received, with a great deal of surprise, a request that a certain rule, viz, "that hogs shall not be kept within the corporate limits of the borough" be suspended.

Although it may not be generally known, this Board believed that its predecessors headed by Dr. Wilson ended the war on the hog and peace was declared which we have always believed was lasting.

The health of the community should at all times, whether the country is at war or peace, be conserved; and this Board cannot agree to permit or give sanction to anything that would menace the health of our citizens particularly our babies.

Replying to the recommendation contained in your communication:

1. This Board does not believe in class legislation and is most emphatically opposed to privileges; our endeavor being to treat all of our citizens alike. This is impossible where persons living in one section of the borough limits are granted privileges denied to others.
2. The expense of raising a pig is so great that an added fee for supervision would defeat the purpose of your request.
3. Pig pens are incompatible with good health, and are not found in any first class boroughs.

4. This Board does not believe that the lives of almost eight thousand people should be jeopardized by the granting of a certain privilege to possibly less than a hundred citizens.
We are pledged to progressive legislation and cannot change any rule which we believe would be a "backward step."

Board of Health of Clearfield Borough.
Dr. Reilly, President of the Board of Health and Mrs. H. Clark Thayer, president of the Woman's club were present and spoke forcibly in support of the action of the health authorities. Nobody said a word in favor of the piggie and on motion of Mr. Hess, seconded by Mr. Wrigley, the recommendation of the Board of Health was unanimously adopted and when Clearfield takes her next census they will not include the family pig.

Mr. Hagerty of the Finance committee reported that \$600 of the Firemen's relief fund had been invested in a Clearfield borough bond.

Robert Thompson was present and complained that Martin street as laid out for paving by the Borough Engineer encroaches on his property about three feet along his entire frontage. Matter referred to Highway department, Borough Engineer and Borough Solicitor for report at next meeting.

The Finance committee was directed to issue \$7,500 of 1916 improvement bonds for purpose of supplying requirements of Highway department on Nichols and Fourth street and special equipment accounts.

W. I. Curley was present and asked an exoneration for the U. B. church property of Seventh street sewer assessment amounting to \$76.98.

Request for sanitary sewer on Eleventh street was referred to sewer committee for report at next meeting.

Street Commissioner Graham was given an increase of \$5.00 per month in his salary.

Secretary Wilson of board of health reported that there were fourteen

FIFTY PER CENT. ARE CLAIMING EXEMPTION

**Dependent Relatives Is Reason

FRANCE PLEASED WITH RESULT

By Carl D. Groat
(By United Press)

Washington, June 7.—Returns filtering into the Provost Marshal's office today indicate that the exemption claims are easily 50 per cent. of those registered. This, however, did not far exceed official expectations, inasmuch as many are based on dependent relatives.

The exemption claims will be carefully investigated in order to determine whether they are bona-fide. Indications are that but a small percentage hid "behind women's skirts."

In case of conscientious objections the applicant will not be exempted for that reason but will have to perform some military service.

Returns are slow but are speeding up today. The fact that ten million men have enrolled and are available for military service will have a physiological effect in Germany it is believed; showing the great resource of man power still to be aligned against her.

Paris, June 7.—"The French government is pleased with the result of the American enrollment for war," declared M. Cambon, former Foreign Minister today. "We realize that a certain amount of time must elapse before America can thoroughly cooperate with the allies."

cases of contagious diseases under quarantine in the borough at present as follows: measles, 9; whooping cough, 2; diphtheria, 1; scarlet fever, 1. Since May 2nd he had quarantined 65 cases, 59 of which were measles, but all had been fumigated and discharged except the 14 enumerated above. Out of the 213 cases of contagious diseases reported to the board of health thus far in 1917 there has been but two deaths, one child three months old dying of whooping cough, and one child 7 years old of scarlet fever. This showing is a rare tribute to the skill of Clearfield's physicians, action from the borough authorities.

J. D. Connelly, Secretary,
Borough Council,
Clearfield, Pa.

Dear Sir:—Following our letter of August 14th 1916, a representative from your borough called at this office and promised that the various requirements contained in the sewerage permit of April 22nd, 1914, would receive immediate action. You are requested to advise what progress is now being made on this matter.

Very truly yours,
SAMUEL G. DIXON
The secretary and borough solicitor were directed to formulate a reply to Dr. Dixon.

The sewer extension permit to council expires July 1st of this year. Dr. Dixon in his previous communications asked to have constructed some of the lateral sewers called for in the comprehensive plan for the borough recently prepared and adopted by direction of the state health department, but it is simply out of the question to ask for any work on this plan at this time and Dr. Dixon should wake up to this fact.

"CLOSE-UP" OF GENERAL J. J. PERSHING

(By United Press)
Washington, June 7.—Someone once said that genius is a matter of detail. If that someone was right then Maj. Gen. John J. Pershing, who will command America's first expeditionary forces in France is a military genius. He is a regular demon for detail.

An inspection is a military formality not popular in the Army and an inspection by Gen. Pershing is always anticipated with fear and trembling. "Thorough" hardly describes it.

Last September Gen. Pershing conducted an inspection of 300 troops stationed at the base of the Mexican punitive expedition in Columbus, N. M.

It occupied five hours and when completed the General knew the fitness for immediate field service of every man in the command.

"Shave off those decorations" was a frequent order to those cultivating beards.

Dirty rifles aroused the General's ire. "That's a fine looking instrument. Been using it for a hoo haw you?" he would ask.

Down the line he went, his eyes taking in every detail. "Take off your uniform when you sleep" he would snap. "Don't you ever wash those pants?"

Without stopping to eat or for a moment's rest he kept at his task through the infantry, the signal corps, the ambulance and hospital units and along the long line of motor and drivers in the truck companies and the aviation corps.

Pershing knew what he had in men and equipment every minute he was in Mexico. And he saw that his men lacked nothing. And so in France he will know every minute what he has in men and equipment and he will see that they lack nothing to make them efficient soldiers. For Pershing, in the phraseology, is "a hound for detail."

The Red Sox have been going along at a merry clip, notwithstanding the absence from the lineup of Manager Barry and Tilly Walker. Janvin and Walsh, substituting respectively for Barry and Walker, have been doing good work for the champions.

PREPARING FOR TRADE WAR

London, June 7.—Great Britain is already preparing for the trade-war which will follow cessation of hostilities. A British trade corporation capitalized at 30,000,000 pounds has been formed to finance large overseas contracts after the war. It will furnish financial assistance to obtain and execute orders abroad.

THE "SILVER SHELL" SUNK THE U-BOAT

Washington, June 7.—The American steamer Silver Shell of Wilmington, Del., is the first vessel under the United States flag officially reported to be victor in a fight with a German submarine.

W. J. Clark, of New York, Chief Turret Captain of the U. S. ship Arkansas was in command of the gun crew which sank the Silver Shell. Secretary Daniels commended Clark and his crew and declared that he had risen from the enlisted ranks and is worthy of high praise. A promotion is under consideration.

The Navy department announced today that the Silver Shell sank the U-boat in an hour and a half's battle in the Mediterranean on May 30. Reports to the navy department from the Silver Shell's gun crew confirms the consular message of yesterday. The report leaves no doubt of the authenticity of the story.

An official announcement yesterday gave details of the battle in which 60 shells were fired at the submarine but the name of the vessel was withheld. Statements today said that the Silver Shell had fought the submarine and the U-boat had disappeared after a long fight and that the unnamed vessel in its original statement was the Silver Shell.

Paris, June 7.—American war ships have arrived and are now in French waters, according to an official announcement today. Le Matin announced that the vessels are laden with commodities. Dispatches from France said that the American vessels were accorded a tremendous enthusiastic reception. In Paris all newspapers are rejoicing in this latest visible sign of America's aid to France. Official orders have been given for the disposition of the American troops when they arrive. Camps have been surveyed and assigned, and everything is being made ready for General Pershing when he arrives some time in the future.

Agricultural Depart'm't Head Talks On Crops

Charles E. Patton on Way to Curwensville Home Tells Progress of Seed Distribution

Secretary of Agriculture Charles E. Patton, passed through Clearfield this morning on his way from Harrisburg to his home in Curwensville. In conversation with The Progress representative he stated that the state authorities were making every effort to help increase the food production of the grand old Keystone state. He hopes to see a banner yield in Clearfield county this fall and said we surely ought to increase our supply of potatoes as he had shipped seven hundred and fifty bushels of potatoes into the county for planting and when this supply is planted in addition to the natural seed of the county some idea could be gathered of the increase in the acreage of potatoes over ordinary years.

Secretary Patton also sent a car load of seed buckwheat into the DuBois region which is being retailed out to the farmers of that section at cost and says he feels that a special effort should be made by Clearfield county farmers to increase the acreage of this valuable food product.

Mr. Patton has also arranged with a number of Clearfield county farmers to purchase navy beans for seed and informed us he succeeded in securing a supply of No. 1 seed beans in Baltimore which he is also sending out at cost and which offer is being generally taken advantage of throughout the state.

Some of the farmers of our county notified the agricultural department that they had trouble getting fertilizer for their buckwheat and other crops and Secretary Patton already has a car load on the way which will also be sold at cost which means that the farmer will receive his fertilizer at actual cost and freight, less the percentage usually paid the middleman or retailer.

Secretary Patton has been fully alive to the duties and possibilities of his position during these trying times and is making an enviable record for his department.

This is not a proper time for criticism of government affairs but the fact remains that McAdoo has proven himself a bun bond salesman. "PUT UP OR SHUT UP"

The great American people like to boast of their feverish activity and untiring, ambitious energy. Men fight like demons to excel in business, sports and the arts and success in their chosen work is the goal toward which every true American races. Love of the financial reward is not the only incentive and we rather incline to the belief that it is secondary in the minds of those who strive to overcome obstacles which they find in their path. There is something in the very blood of a young American which makes him want to win out against odds, triumph over handicaps and stand exalted at the head of the column in the rank of nations. This spirit takes form in his school days when he boldly offers to throw his adversary with one hand behind his back. It develops as he enters High School and with brute strength plows his way through his opponents on the gridiron. When he steps from his school or college he enters a new realm where he finds the struggle even greater. He finds the storm of life a blowing gale but American-like he weathers the trying experience and quickly becomes a part of the great American maelstrom of business life. Thus far this speech sounds very nice. You have heard the same sentiments before. We pay from one to three dollars to hear a lecturer give us the same line of dope but put up in finer packages. He appeals to our vanity and our abundance of conceit carries us to the heavens in our good estimation of ourselves. Enter Billy Sunday. He tears down the shams, uncovers hypocrisy and reveals the real man stripped of his conceit and clothed only in his egotism which he finds to be a transparent cloth. Sam Jones did the same thing. He held men up to a mirror in which they saw and recognized their true selves.

We can say with all sincerity that America is a great nation and that Americans are a great people but it is high time that we throw off our screen of shams, conceit and over confidence and make our actions harmonize with our statements that Americans will win the war, that the Liberty Bond issue will be over-subscribed and that we will ungrudgingly assume our burdens. Many men have so often uttered the belief that the Liberty Bond issue will be over-subscribed that they come to believe it has already been over-subscribed. Some men forget that they are an integral part of the nation and have a duty to perform. Our government has assets of Two Hundred Billion Dollars it is true but remember that whatever you own is included in that amount. Do not delude yourself into thinking that you do not have a duty to perform. In the language of the bowery, it is time to "put up for a part of the Loan or shut up."

A REAL CIRCUS WILL BE HERE NEXT WEEK

Old Time Residents Of Clearfield Always Satisfied With Robinson's Circus

VISITS HERE SAT. JUNE 16TH

The circus is coming to Clearfield Saturday, June 16th. It is the John Robinson Ten Big Shows. This interesting topic is on the tongues of Clearfield folks today. The small boy, his sister and the grown-ups as well—everybody is unusually interested, for the John Robinson Circus is easily one of the largest that has ever been transported from city to city.

It is of more than ordinary interest to note that old John Robinson, long since passed across the "great divide," was the daddy of the circus business.

It was away back in 1824 when he first organized his one-ring tented outfit, and therein laid the foundation of what later developed into the very largest and most successful circus and menagerie that has ever traveled these United States.

Like the proverbial "acorn and oak," the original John Robinson handed down to his sons and to posterity an enterprise that promises to rival the "running brook" in continuity.

The sons and grandchildren of the founder of the Ten Big Shows have the mammoth institution bearing the name of Robinson.

At no time during the past 93 years of its existence has the standard of the John Robinson circus been allowed to deteriorate and from everywhere that the big circus has exhibited this season come satisfactory reports that augur well for the quality of exhibit that will shortly visit Clearfield.

Our Borough Solons Decide Piggie Must Remain Out

**Council Adopts Recommendation Of
Board Of Health Placing Clearfield
Babies Ahead Of Clearfield Hog**

LOCAL LEGISLATURE HELD BUSY SESSION

The regular meeting of council held in the borough building last evening was participated in by Burgess Callahan and nine of the members of council, with President Fletcher presiding. It was a rather strenuous session and in order to accommodate all lobbyists and those with grievances, real and imaginary, the meeting room of the Firemen's hall was used instead of the council chamber.

This was the meeting at which the "pig question" was to be settled again, and a large lobby for and against the pig was expected, but the friends of the pig and home-made hams and bacon failed to materialize and poor piggie received a short shrift.

Following the usual routine business reports of the different borough officials were heard.

Street Commissioner Graham reported the activities of the men in his charge and presented a pay roll totaling \$448.90 for the past three weeks. He also made a report of the total cost of West Fifth avenue sewer, which was completed May 3rd last. This is an eight inch sewer and is 562 feet long. It was built at a cost of \$430.56. Labor and team work amounted to \$259.77; pipe, \$117, while the remaining \$53.79 was spent for engineering, publishing ordinances and other incidentals.

The pro rata share assessed against the abutting property owners will be 39 cents per foot.

Borough Engineer Hess reported at length on engineering matters and presented an estimate of cost of paving West Third avenue, which had been requested by property owners, who would also agree to pay two thirds the expense of same providing council could see their way clear to going ahead with that work. The street is 1,240 feet long and according to the estimate the cost of paving would be \$4,624. Under the joint plan the borough would have to pay \$1,541 and the abutting property owners the remaining \$3,083.00.

Tax Collector Jacobs reported collections of \$556.87 for May on duplicate of 1916. Collector Jacobs completed and paid off the 1915 duplicate in April last.

Borough Solicitor Urey reported collections of \$79.18 since last meeting and presented check for same.

Matter of suspension of Board of Health rule relative to the keeping of hogs within the borough limits was taken up. This proposition was advanced at a previous meeting of council and the secretary was directed to present to the Board of Health a resolution covering the points made by the advocates of the idea, asking a recommendation from the health authorities before disposing of the matter. This resolution with the reply of the Board of Health follows:

It having been brought to the attention of Council at its last meeting that a number of the citizens of Clearfield believed it would be wise in view of the present high cost of living, to suspend for a specified time, viz, during the war, the rule of the Board of Health which provides against or forbids the keeping of hogs within the corporate limits of the Borough of Clearfield; it was the sense of Council, without any action having been taken on the proposition, that it would be but right and proper to have the matter presented to the Board of Health for their recommendation before the same was passed upon finally by Council.

To that end, following the discussion incident to the proposal, the Secretary of Council was directed to submit the question in writing to the Board of Health at its regular meeting preceding the next meeting of Council on June 6th, and ask at your hands same recommendation covering the case.

The member of Council who asked for the suspension of the rule hoped for favorable action on same, with necessary restrictions covering the following points.

1. Restriction of privilege to the sparsely settled sections of town; that is outside of the centre or congested

sections.
2. That privilege be granted by Health Officer, permit for same to require nominal fee to cover inspection charges.
3. That all pens be constructed and maintained as sanitarily as possible, the Board of Health to provide rules covering maintenance of all stys in case said rule be suspended and permits issued.

Council expects and will appreciate a written recommendation covering this proposition in your report to next meeting.

Respectfully submitted,
J. D. CONNELLY,
Secretary

To the Honorable Members of Council:
The Board of Health has received, with a great deal of surprise, a request that a certain rule, viz, "that hogs shall not be kept within the corporate limits of the borough" be suspended.

Although it may not be generally known, this Board believed that its predecessors headed by Dr. Wilson ended the war on the hog and peace was declared which we have always believed was lasting.

The health of the community should at all times, whether the country is at war or peace, be conserved; and this Board cannot agree to permit or give sanction to anything that would menace the health of our citizens particularly our babies.

Replying to the recommendation contained in your communication:

1. This Board does not believe in class legislation and is most emphatically opposed to privileges; our endeavor being to treat all of our citizens alike. This is impossible where persons living in one section of the borough limits are granted privileges denied to others.
2. The expense of raising a pig is so great that an added fee for supervision would defeat the purpose of your request.
3. Pig pens are incompatible with good health, and are not found in any first class boroughs.

4. This Board does not believe that the lives of almost eight thousand people should be jeopardized by the granting of a certain privilege to possibly less than a hundred citizens.
We are pledged to progressive legislation and cannot change any rule which we believe would be a "backward step."

Board of Health of Clearfield Borough.
Dr. Reilly, President of the Board of Health and Mrs. H. Clark Thayer, president of the Woman's club were present and spoke forcibly in support of the action of the health authorities. Nobody said a word in favor of the piggie and on motion of Mr. Hess, seconded by Mr. Wrigley, the recommendation of the Board of Health was unanimously adopted and when Clearfield takes her next census they will not include the family pig.

Mr. Hagerty of the Finance committee reported that \$600 of the Firemen's relief fund had been invested in a Clearfield borough bond.

Robert Thompson was present and complained that Martin street as laid out for paving by the Borough Engineer encroaches on his property about three feet along his entire frontage. Matter referred to Highway department, Borough Engineer and Borough Solicitor for report at next meeting.

The Finance committee was directed to issue \$7,500 of 1916 improvement bonds for purpose of supplying requirements of Highway department on Nichols and Fourth street and special equipment accounts.

W. I. Curley was present and asked an exoneration for the U. B. church property of Seventh street sewer assessment amounting to \$76.98.

Request for sanitary sewer on Eleventh street was referred to sewer committee for report at next meeting.

Street Commissioner Graham was given an increase of \$5.00 per month in his salary.

Secretary Wilson of board of health reported that there were fourteen

FIFTY PER CENT. ARE CLAIMING EXEMPTION

**Dependent Relatives Is Reason
But Each Claim Will Be
Thoroughly Investigated**

FRANCE PLEASED WITH RESULT

By Carl D. Groat
(By United Press)
Washington, June 7.—Returns filtering into the Provost Marshal's office today indicate that the exemption claims are easily 50 per cent. of those registered. This, however, did not far exceed official expectations, inasmuch as many are based on dependent relatives.

The exemption claims will be carefully investigated in order to determine whether they are bona-fide. Indications are that but a small percentage hid "behind women's skirts."

In case of conscientious objections the applicant will not be exempted for that reason but will have to perform some military service.

Returns are slow but are speeding up today. The fact that ten million men have enrolled and are available for military service will have a physiological effect in Germany it is believed; showing the great resource of man power still to be aligned against her.

French Pleased
Paris, June 7.—"The French government is pleased with the result of the American enrollment for war," declared M. Cambon, former Foreign Minister today. "We realize that a certain amount of time must elapse before America can thoroughly cooperate with the allies."

LAWYERS FIX UNION SCALE

Bowling (By United Press)
Green, O., June 7.—You can get a divorce and alimony here for \$50, but it will cost you \$500 to be defended on a first degree murder charge according to the attorney rates agreed on by lawyers today. Other prices are: contingent fees in damage cases, 33 1-2 per cent; second degree murder \$300; manslaughter \$200.

cases of contagious diseases under quarantine in the borough at present as follows: measles, 9; whooping cough, 2; diphtheria, 1; scarlet fever, 1. Since May 2nd he had quarantined 65 cases, 59 of which were measles, but all had been fumigated and discharged except the 14 enumerated above. Out of the 213 cases of contagious diseases reported to the board of health thus far in 1917 there has been but two deaths, one child three months old dying of whooping cough, and one child 7 years old of scarlet fever. This showing is a rare tribute to the skill of Clearfield's physicians, action from the borough authorities.

The following letter was read to council:

Department of Health, Harrisburg
May 25, 1917
J. D. Connelly, Secretary,
Borough Council,
Clearfield, Pa.

Dear Sir:
Following our letter of August 14th 1916, a representative from your borough called at this office and promised that the various requirements contained in the sewerage permit of April 22nd, 1914, would receive immediate action. You are requested to advise what progress is now being made on this matter.

Very truly yours,
SAMUEL G. DIXON
The secretary and borough solicitor were directed to formulate a reply to Dr. Dixon.

The sewer extension permit to council expires July 1st of this year. Dr. Dixon in his previous communications asked to have constructed some of the lateral sewers called for in the comprehensive plan for the borough recently prepared and adopted by direction of the state health department, but it is simply out of the question to ask for any work on this plan at this time and Dr. Dixon should wake up to this fact.

"CLOSE-UP" OF GENERAL J. J. PERSHING

(By United Press)
Washington, June 7.—Someone once said that genius is a matter of detail. If that someone was right then Maj. Gen. John J. Pershing, who will command America's first expeditionary forces in France is a military genius. He is a regular demon for detail.

An inspection is a military formality not popular in the Army and an inspection by Gen. Pershing is always anticipated with fear and trembling. "Thorough" hardly describes it.

Last September Gen. Pershing conducted an inspection of 300 troops stationed at the base of the Mexican punitive expedition in Columbus, N. M.

It occupied five hours and when completed the General knew the fitness for immediate field service of every man in the command.

"Shave off those decorations" was a frequent order to those cultivating beards.

Dirty rifles aroused the General's ire. "That's a fine looking instrument. Been using it for a hoo haw you?" he would ask.

Down the line he went, his eyes taking in every detail. "Take off your uniform when you sleep" he would snap. "Don't you ever wash those pants?"

Without stopping to eat or for a moment's rest he kept at his task through the infantry, the signal corps, the ambulance and hospital units and along the long line of motor and drivers in the truck companies and the aviation corps.

Pershing knew what he had in men and equipment every minute he was in Mexico. And he saw that his men lacked nothing. And so in France he will know every minute what he has in men and equipment and he will see that they lack nothing to make them efficient soldiers. For Pershing, in the phraseology, is "a hound for detail."

The Red Sox have been going along at a merry clip, notwithstanding the absence from the lineup of Manager Barry and Tilly Walker. Janvin and Walsh, substituting respectively for Barry and Walker, have been doing good work for the champions.

PREPARING FOR TRADE WAR

London, June 7.—Great Britain is already preparing for the trade-war which will follow cessation of hostilities. A British trade corporation capitalized at 30,000,000 pounds has been formed to finance large overseas contracts after the war. It will furnish financial assistance to obtain and execute orders abroad.

THE "SILVER SHELL" SUNK THE U-BOAT

Washington, June 7.—The American steamer Silver Shell of Wilmington, Del., is the first vessel under the United States flag officially reported to be victor in a fight with a German submarine.

W. J. Clark, of New York, Chief Turret Captain of the U. S. ship Arkansas was in command of the gun crew of the Silver Shell. Secretary Daniels commended Clark's gallant and declared that he had risen from the coldest ranks and is worthy of high praise. A promotion is under consideration.

The Navy department announced today that the Silver Shell sunk the U-boat in an hour and a half's battle in the Mediterranean on May 30. Reports to the navy department from the Silver Shell's gun crew confirms the consular message of yesterday. The report leaves no doubt of the authenticity of the story.

An official announcement yesterday gave details of the battle in which 60 shells were fired at the submarine but the name of the vessel was withheld. Statements today said that the Silver Shell had fought the submarine and the U-boat had disappeared after a long fight and that the unnamed vessel in its original statement was the Silver Shell.

Paris, June 7.—American war ships have arrived and are now in French waters, according to an official announcement today. Le Matin announced that the vessels are laden with commodities. Dispatches from France said that the American vessels were accorded a tremendous enthusiastic reception. In Paris all newspapers are rejoicing in this latest visible sign of America's aid to France. Official orders have been given for the disposition of the American troops when they arrive. Camps have been surveyed and assigned, and everything is being made ready for General Pershing when he arrives some time in the future.

Agricultural Depart'm't Head Talks On Crops

Charles E. Patton on Way to Curwensville Home Tells Progress of Seed Distribution

Secretary of Agriculture Charles E. Patton, passed through Clearfield this morning on his way from Harrisburg to his home in Curwensville. In conversation with The Progress representative he stated that the state authorities were making every effort to help increase the food production of the grand old Keystone state. He hopes to see a banner yield in Clearfield county this fall and said we surely ought to increase our supply of potatoes as he had shipped seven hundred and fifty bushels of potatoes into the county for planting and when this supply is planted in addition to the natural seed of the county some idea could be gathered of the increase in the acreage of potatoes over ordinary years.

Secretary Patton also sent a car load of seed buckwheat into the DuBois region which is being retailed out to the farmers of that section at cost and says he feels that a special effort should be made by Clearfield county farmers to increase the acreage of this valuable food product.

Mr. Patton has also arranged with a number of Clearfield county farmers to purchase navy beans for seed and informed us he succeeded in securing a supply of No. 1 seed beans in Baltimore which he is also sending out at cost and which offer is being generally taken advantage of throughout the state.

Some of the farmers of our county notified the agricultural department that they had trouble getting fertilizer for their buckwheat and other crops and Secretary Patton already has a car load on the way which will also be sold at cost which means that the farmer will receive his fertilizer at actual cost and freight, less the percentage usually paid the middleman or retailer.

Secretary Patton has been fully alive to the duties and possibilities of his position during these trying times and is making an enviable record for his department.

GRANGERS FOR LIBERTY LOAN

Columbus, O., June 7.—Ohio grangers, 75,000 strong, today launched a mammoth summer drive on the "Wendenburg hater line." L. J. Taber, master of the Ohio grange, led the campaign to boost Liberty Bond sales. Granges met throughout the state. "Every farmer will be urged to buy a Liberty Bond," Taber said today. "Public sentiment will be created to prevent use of grain for alcohol during the war. Farmers will take steps to curb food speculators." The campaign opened today with a farmers and merchants picnic at Zanesville.

THURSDAY EVENING, JUNE 7, 1917

This is not a proper time for criticism of government affairs but the fact remains that McAdoo has proven himself a bun bond salesman. The fact became apparent soon after the issue was announced and he immediately threw out the S. O. S. sign to bankers and newspapers who have come to his relief and are placing the issue now in large daily amounts.

"PUT UP OR SHUT UP"

The great American people like to boast of their fiery activity and untiring, ambitious energy. Men fight like demons to excel in business, sports and the arts and success in their chosen work is the goal toward which every true American races. Love of the financial reward is not the only incentive and we rather incline to the belief that it is secondary in the minds of those who strive to overcome obstacles which they find in their path. There is something in the very blood of a young American which makes him want to win out against odds, triumph over handicaps and stand exalted at the head of the column in the rank of nations. This spirit takes form in his school days when he boldly offers to throw his adversary with one hand behind his back. It develops as he enters High School and with brute strength plows his way through his opponents on the gridiron. When he steps from his school or college he enters a new realm where he finds the struggle even greater. He finds the storm of life a blowing gale but American-like he weathers the trying experience and quickly becomes a part of the great American maelstrom of business life. Thus far this speech sounds very nice. You have heard the same sentiments before. We pay from one to three dollars to hear a lecturer give us the same line of dope but put up in finer packages. He appeals to our vanity and our abundance of conceit carries us to the heavens in our good estimation of ourselves. Enter Billy Sunday. He tears down the shams, uncovers hypocrisy and reveals the real man stripped of his conceit and clothed only in his egotism which he finds to be a transparent cloth. Sam Jones did the same thing. He held men up to a mirror in which they saw and recognized their true selves.

We can say with all sincerity that America is a great nation and that Americans are a great people but it is high time that we throw off our screen of shams, conceit and over confidence and make our actions harmonize with our statements that Americans will win the war, that the Liberty Bond issue will be over-subscribed and that we will ungrudgingly assume our burdens. Many men have so often uttered the belief that the Liberty Bond issue will be over-subscribed that they come to believe it has already been over-subscribed. Some men forget that they are an integral part of the nation and have a duty to perform. Our government has assets of Two Hundred Billion Dollars it is true but remember that whatever you own is included in that amount. Do not delude yourself into thinking that you do not have a duty to perform. In the language of the bowery, it is time to "put up for a part of the Loan or shut up."

These Materials Will Make Such Pretty Dresses

Madam, if You Have Been Putting Off The Purchase Of Your Summer Dress Materials This Will Be Welcome News For You. The Hot Weather Will Be Here In A Twinkling

The collection that we are showing of summery materials, such as voiles, organdies, lawns, dimities and the like is really exquisite. Some of the stripes are a wee bit daring but that's what they are all wearing. There's a profusion of floral patterns and plenty of plain colors, of course.

The price is one of the most enticing things about the collection in view of the unusual conditions. They are marked at from 10c to 60c the yd.

A BARGAIN TABLE OF WOMEN'S AND CHILDREN'S SUMMER LOW-CUTS

It isn't often that we offer such a thing as a "bargain" but we really find that we have too many of these low-cuts in stock—some of them we have carried over from last year and may be just a little out of the prevailing fashion but in view of the existing conditions in the savings to be made are worthy of your particular attention, especially where there are many little pairs of feet to be shod.

They are all placed on a table in the centre of the store and plainly marked at \$2.98

A NEW LOT OF SHEER SHIMMERY HOSE

They are just as dainty as they can be and are just the thing for the pumps and low shoes that are going to be the rage this summer.

They are a fibre silk boot hose with lisle garter tops. Come in champagne, brown, gray, blue and pink. They are marked to sell at 60c

BLOUSES FOR THAT ROUSING ROMPING BOY

A REAL CIRCUS WILL BE HERE NEXT WEEK

Old Time Residents Of Clearfield Always Satisfied With Robinson's Circus

VISITS HERE SAT. JUNE 16TH

The circus is coming to Clearfield Saturday, June 16th. It is the John Robinson Ten Big Shows. This interesting topic is on the tongues of Clearfield folks today. The small boy, his sister and the grown-ups as well—everybody is unusually interested, for the John Robinson Circus is easily one of the largest that has ever been transported from city to city.

It is of more than ordinary interest to note that old John Robinson, long since passed across the "great divide," was the daddy of the circus business.

It was away back in 1824 when he first organized his one-ring tented outfit, and therein laid the foundation of what later developed into the very largest and most successful circus and menagerie that has ever traveled these United States.

Like the proverbial "acorn and oak," the original John Robinson handed down to his sons and to posterity an enterprise that promises to rival the "running brook" in continuity.

The sons and grandchildren of the founder of the Ten Big Shows have the mammoth institution bearing the name of Robinson.

At no time during the past 93 years of its existence has the standard of the John Robinson circus been allowed to deteriorate and from everywhere that the big circus has exhibited this season come satisfactory reports that augur well for the quality of exhibit that will shortly visit Clearfield.

The Whatchama Column

Pie is a commodity you always forget to save room for.

It is of three kinds: plain, cross-bar and livered. It is only fair to say that for this definition we are indebted to a country hotel waitress in Brown county, Indiana.

Its just the same with pie as it is with a building; a great deal depends on the architect.

Some pie is like some persons; has an awful crust.

And pie depends a good deal on geography. Pie in New England is an art, in the middle west it is a habit, and in the average restaurants it is an insult.

SOUTH CLEARFIELD BOY SAVED; PARENTS REJOICE

Mr. M. Rutz, Father of the Boy, Came to the Stewart Drug Store Yesterday and Thanked the Goldine Man for Saving his Son, Sam; said they had Almost Given up Hope, Today Boy is Well and Strong.

Read this remarkable statement. If you doubt it, go and see the boy yourself. The proofs are before you.

Mr. M. Rutz walked from his home to the Stewart Drug Store yesterday to tell the Goldine man about his son. This is the third testimonial voluntarily given in praise of Goldine in one day. None were so remarkable or given with such heartfelt gratitude as the following:

He said: "My boy, Sam, who is 1½ years old, became ill about a year ago. He was pale and weak, could play but a little while when he became exhausted. Would come in the house and lie down, complaining of headache. He seldom ate anything for breakfast and when induced to do so, became sick and could not retain it. Some days he was too ill to attempt any exercise at all. These spells became more frequent. He became nervous and lost weight, could not attend school more than half the time, often leaving when school was in session, being too sick to remain.

We consulted two or three doctors and did everything we could for him without results.

We had lost a daughter through a similar sickness and to see our son going the same way with no power to save him drove us frantic. We heard of Goldine and the wonderful work it was doing to cure the town people. But we did not have much faith, as we had already exhausted every effort so it seemed, yet there was hope and we got a bottle of Goldine. I cannot tell you with what joy we watched

the results. Sam seemed to get better from the first day, after taking Goldine. He began to get an appetite and what he ate did not cause him any distress. He gradually began to gain strength, his nervousness is gone, he has not had a headache since taking Goldine, has been able to go to school every day; color is coming back into his face, he is gaining in weight and has been able to play all day without getting tired. It is the greatest medicine I ever saw and I am telling you this that it may help some one else who needs it as we did. I truly believe that had we been able to get Goldine when our daughter was taken sick, that she would still be with us. I am telling everyone about this medicine, for I know what it will do. If they doubt its virtue send them to me and I will show them the boy.

SOCIAL WORKERS DISCUSS CHILDREN'S PROBLEMS

(By United Press)

Pittsburg, Pa., June 7.—Juvenile courts, illegitimacy and the best means of dealing with it were the leading questions discussed at the second day's session of the National Conference of Charities and Corrections here today.

In joint session with the National Probation Association, delegates to the corrections conference took up juvenile court problems this morning. Judge Frederick Cabot of Boston led with an address on "The Legal Power of the Juvenile Court."

Social problems of the war were scheduled for discussion after today.
